TAROT SPREADS

THE 3 CARD SPREAD

The three-card tarot spread is a simple, quick, and effective way to gain insight into a question or situation. It uses three cards, typically laid out in a row from left to right. Here's what each card represents:

Card 1: The Past - This card represents past influences, events, or experiences that are affecting your current situation. It offers context for what brought you to where you are now.

Card 2: The Present - This card highlights your current state or the main issue at hand. It reflects what's happening now and what you need to be aware of in the moment.

Card 3: The Future - This card suggests possible outcomes or what lies ahead based on your current path. It can serve as guidance on where things may lead.

This spread is great for straightforward questions and provides a snapshot of how past events are shaping your present and where it may be heading.

THREE CARD SPREAD

CARD 1 = PAST
CARD 2 = PRESENT
CARD 3 = FUTURE

CELTIC CROSS TAROT SPREAD

The Celtic Cross spread is a fantastic way to dive deep into a situation and understand what's going on around you::

Card 1: The Situation - This card sets the stage and represents what you're currently dealing with or the main focus of your question.

Card 2: Obstacles/Challenges - This card shows what challenges or roadblocks you're facing. Think of it as the hurdles you need to clear.

Card 3: The Past - This covers recent events or influences that are still playing a part in your current situation.

Card 4: The Distant Past - Here, you'll see deeper or older influences that may still be impacting what's happening now. It's a glimpse into what set the stage a while back.

Card 5: Here and Now - This card highlights what's going on right now. It's your current state or the present moment in all its complexity.

Card 6: The Future - This gives you a sneak peek into what might be coming up next if things stay on their current course.

Card 7: Environmental Influences - Here's what's going on around you. It shows how other people, events, or even your surroundings might be affecting the situation.

Card 8: Self-Perception (Sees Self) - This card gives insight into how you see yourself in this situation—your self-image, beliefs, and perhaps even blind spots.

Card 9: Hopes and Fears - This covers what you're hoping for—or maybe dreading—about the situation or how it turns out.

Card 10: Final Probable Outcome - This card suggests where things are likely headed if you keep moving forward the way you are.

This spread is like a story that unfolds, showing how your past shapes your present, and where it might lead you. It brings together what's happening inside you, what's going on around you, and where it all might go.

CELTIC CROSS

CARD 1 = SITUATION

CARD 2 = CHALLENGES
